## COMMENTS

The Public Representative has reviewed the Postal Service’s Notice and the instant contract. The Public Representative has also reviewed the supporting financial models filed separately under seal for the Global Plus 1D contract that accompany the Postal Service’s Notice. Based upon that review, the Public Representative concludes that the Global Plus 1D contracts satisfy the criteria of section 3642(b), concerning the classification of new competitive products, and comply with requirements section 3633(a), concerning rates for competitive products.

Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (Governors decision No. 11-6), March 22, 2011.

*Product Costs.* Pursuant to 39 U.S.C. § 3633(a), the Postal Service must demonstrate that competitive product rates (1) do not result in market dominant products subsidizing competitive products, (2) ensure that each competitive product covers its attributable costs; and (3) enable competitive products as a whole to cover an appropriate share of the institutional costs of the Postal Service. In this proceeding, the Postal Service asserts that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. Thus this new Global Plus 1D contract is in compliance with the requirements of 39 U.S.C. § 3633.” Attach. 2. The financial model accompanying the Postal Service’s Request indicates that the negotiated prices in this Global Plus 1D contract should generate sufficient revenue to cover costs.

*Functional Equivalence.* In its Notice, the Postal the Postal Service states that the Global Plus 1D contract under consideration is substantially similar to the Global Plus 1D baseline contract filed in Docket No. CP2016-193. There are differences between this contract and the baseline contract that is the subject of Docket Nos.CP2016-193. However, the Postal Service maintains that these differences “do not affect the market characteristics of the Global Plus 1D product.” *Id.* It therefore asserts that the instant contract is functionally equivalent to the baseline contract. *Id.* at 5 The Public Representative agrees that these differences do not alter the conclusion that the two Global Plus 1D contracts are functionally equivalent.

The Public Representative respectfully submits the foregoing comments for the Commission's consideration.
